

# 2010 Kentucky Asthma Program Fact Sheet- KIPDA District

- The KIPDA District of Kentucky is comprised of 7 counties: Bullitt, Henry, Jefferson, Oldham, Shelby, Spencer, and Trimble
- The 2009 KIPDA District population was roughly 938,100, with about 226,200 being less than 18 (children), and about 711,900 being 18 or older (adults).
- According to the Behavioral Risk Factor Surveillance Survey (BRFSS), for 2008, it was estimated that 24,500 children in the KIPDA District currently had asthma. In 2009, it was estimated that 64,300 adults in the KIPDA District currently had asthma.

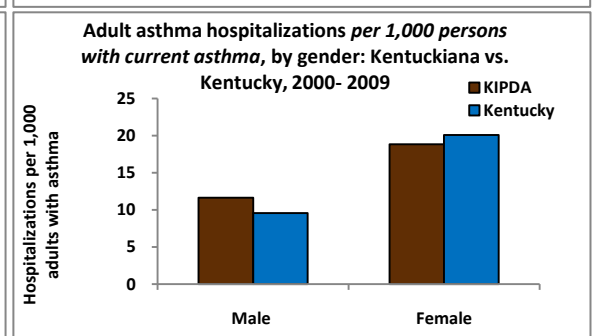

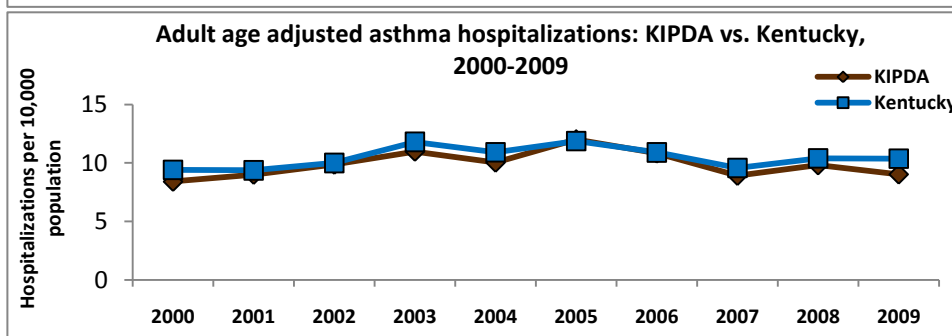

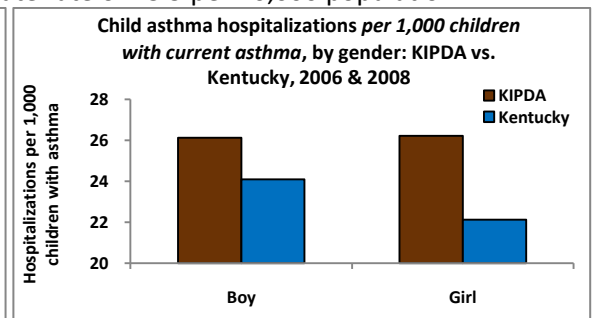

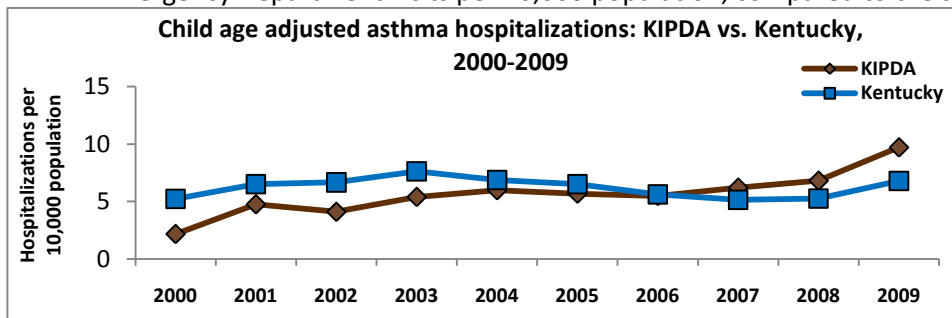

## PREVALENCE

- According to the BRFSS, compared to Kentucky, adults in the KIPDA District reported roughly equal, or lower prevalence rates of both current and lifetime asthma. For children, boys in the KIPDA district had more current and lifetime asthma compared to Kentucky, while girls in the KIPDA district had less lifetime, and only slightly more current asthma compared to Kentucky.

## HOSPITALIZATIONS

- According to data provided by the Office of Health Policy, between 2000 and 2009, the KIPDA District averaged 7.7 asthma hospitalizations (per 10,000 population) per year, while Kentucky averaged more- at 8.4 asthma hospitalizations (per 10,000 population) per year over the same 10 year period.
- In 2009, among children in this district, there were 30.4 asthma Emergency Department visits per 10,000 population, compared to the state rate of 20.0 per 10,000 population. Among adults in this district, there were 29.7 asthma Emergency Department visits per 10,000 population, compared to the state rate of 23.9 per 10,000 population.

## MORTALITY

- According to data provided by the Office of Vital Statistics, between 2000 and 2009, the KIPDA District averaged 11.8 deaths from asthma per year. Over this ten year period, the KIPDA District averaged 21.3 asthma deaths per 100,000 adults with asthma, compared to the state average of 17.1 asthma deaths per 100,000 adults with asthma.
